DSVP10 DISPENSE VALVE

2-Way, direct-acting, gravity fed solenoid valve designed to dispense water or similar media from a tank.

Applications
- Floor scrubbers
- Tank or boiler draining
- Not for potable water applications
- For potable water applications see our DSVP10N

Features
- UR & cUR Cert.
- 18 inches w.c. head pressure
- High flow capacity
- Fixed or adjustable flow

Mechanical Specifications

| Media | Water up to 77º C with Nylon body |
| Operating Pressure | 0-18 inches water column (higher pressure available on request) |
| Operating Position | Any position between horizontal and facing up. |
| Mounting Bracket | Available in any 90º increment - see details on subsequent pages |
| Inlet / Outlet Connections | For Ø.625 ID tubing |
| Vent Tube Option | Not available |
| Valve Body Material | PA66 - Nylon |
| Diaphragm Material | FKM - Viton®, VMQ - Silicone |
| Weight | 14 oz. |

Agency Approvals | UR, cUR |

Ordering Information - Non-Standard Configurations
(Minimum Quantities Apply)

When ordering, please provide as much of the following information as possible to help specify the appropriate valve configuration for your application. If you require assistance, please contact a Deltrol Controls Sales Engineer:

1. What voltage will be supplied to the valve?
   - 12VDC
   - 24VAC 50/60Hz
   - 24VDC
   - 110/120VAC 50/60Hz
   - 36VDC
   - 220/240VAC 50/60Hz

2. What duty cycle do you require?
   - Intermittent (standard)
   - Continuous

3. What diaphragm material do you require?
   - Viton®
   - Silicone

4. What valve body material do you require?
   - Nylon

5. Do you require a flow adjuster? (See Dimensional View on page 2)
   - No
   - Yes

6. How do you want the mounting bracket oriented? (See Mounting Bracket Orientation Options on page 2)
   - Front over inlet port
   - Right of inlet port
   - Left of inlet port
   - Back opposite inlet port

7. How do you want the terminals oriented?
   - Opposite the mounting bracket
   - Over the mounting bracket

8. What coil spade terminal configuration do you require?
   - Straight as shown in the Dimensional View on page 2
   - Bent up (either 45° or 90°), away from valve body
   - Bent down (either 45° or 90°), towards valve body

9. What is the head pressure in your application in inches of water column?
DSVP10

Ordering Information - Standard Configurations

The parts listed below are standard configurations that are typically available through distribution. Please contact your nearest Deltrol distributor for small volume pricing.
